New Council Holds First Meeting. : J. Moores Completes 8 Yrs.

Committees Appointed for Year at Monday's Regular Council Meet'g

Old Council Finishes—The New Begins Work. Workers Delegation Make Demands.

The regular and final meeting of the old council was held on Monday evening. Present: Mayor Moores and Councillors Rushton, Borrowes, Morris and Rushton.

The minutes of the previous regular and the annual meeting were passed on motion of Rushton and Borrowes, and Morris and Rushton. A deputation of men employed on government road work west of town interviewed the council, including Joe Melanchuk, M. Melanchuk, J. Gardin, Louis Palacek, John Halku and others. They complained of unequal division of work and other matters. The mayor and council informed them that the town had no jurisdiction on this work, being under the provincial and federal relief scheme, but promised them it would give them whatever assistance is possible. They also asked that unemployed men be given free light, water and fuel, and that no service be discontinued by the light company through inability to pay.

The mayor informed them that light and water was entirely governed by the Coleman Light & Water Co., and the Utilities Commission of the province, and they had no power to amend its provisions under the franchise, neither could they change any of the provisions of the contracts which all users sign when connected up.

The secretary's report was adopted on motion of Rushton and Borrowes, and various accounts passed for payment.

On motion of Pattinson-Borrowes, the treasurer was instructed to apply for a credit of \$4,500.00 from the Bank of Commerce, and the bank to be advised of the change of mayor for signature of cheques and other documents.

New Council Meets.
On adjournment of the foregoing meeting, the new council met. The oath of office was administered by Secretary Ford, J.P., Mayor Pattinson, Councillors Antrobus and Serak taking the customary oath. The other councillors present were Borrowes and Rushton.

Councillor Rushton was appointed deputy mayor for the ensuing three months. E. D. Batram, of Calgary, auditor.

The secretary was instructed to purchase four additional copies of the Towns Act, on motion of Borrowes and Rushton. The hours of regular meetings were set for the first and fourth Tuesdays of the month at 7.30 p.m.

Notice of motion was given by Cr. Rushton for a by-law to appoint J. Ford as assessor for 1932.

Committees appointed are as follows:

Finance: Borrowes, Rushton, Serak, Works & Property: Jones, Jackson, Antrobus.

Fire, Water & Light: Antrobus, Borrowes, Rushton.

License & Police: Rushton, Jones, Jackson.

By-law: Serak, Rushton, Borrowes, Buildings: Rushton, Serak, Jones.

Band & Park: Borrowes, Antrobus, Serak.

Relief: Jones, Rushton, Serak.

First named to be chairman of each committee.

The advertising columns of The Journal are open to all who desire to purchase space. People wish to read advertisements of the stores and the merchant or any other business which advertises has a far better chance of capturing local business than by not carrying a weekly advertisement.

COLEMAN SCHOOL DISTRICT

5% Rebate

On School Taxes

On all arrears of taxes paid between February 1 and February 29, 1932, a rebate of 5% will be allowed. All whose taxes are in arrears at this date are urged to take immediate advantage of this rebate.

By order of Coleman School Board,
James Ford, Secretary-Treasurer.

A WORD OF THANKS FROM THE MAYOR

To the ratepayers of Coleman who supported me in the election campaign for mayor, I wish to voice a word of appreciation. Having served on the council for the past six years, I can only convey the assurance that I will always keep the interests of our people at heart, during the next two years, as I have tried to do heretofore.

GEORGE PATTINSON.

IN APPRECIATION

I wish to express my appreciation to the ratepayers of Coleman for the evidence of their confidence in me, shown at the polls on Monday, Feb. 8. I only wish to say that I will endeavor to discharge my duties on the town council to the best of my ability and with equal consideration to the interests of all.

FRED ANTROBUS.

IMPORTANT MEETING, FERNIE BOARD OF TRADE DELEGATES

Nelson, Kaslo, Creston and other Board of Trade delegates are scheduled to meet at Fernie on Saturday, Feb. 20th, at 7.30 p.m., and delegates from the Pass towns, Pincher Creek, Mackled and Lethbridge will be present to discuss matters of interest and Red Trail property. J. S. Rose, secretary of Lethbridge Board of Trade states that he looks for a good attendance. Coleman members who intend going should advise W. L. Rippon, secretary, or H. T. Halliwell, president of Coleman Board of Trade.

FATAL ACCIDENT AT FERNIE

Crushed beneath a trip of runaway cars in No. 1 East Mine at Coal Creek, John Millburn, aged 21 years, received injuries on Friday, Feb. 12, which resulted in his death early Sunday morning.

The accident took place just before quitting time and the young man was coming out with his last trip of coal. He was following the trip when in some way a coupling broke and several cars rushed down a steep incline upon him. He was caught between the wheels, his breast being crushed and ribs broken.

CURLING NOTES

Coleman curlers won three of the four in the Studebaker-Pontiac bonspiel last week at Blairmore. Sam Moores had a walk-over with the final in the Studebaker competition, making Jack Bell quit in the 11th end with a score of 13-4. Harry Boulton's rink was presented with four auto robes. Jack Bell's rink received four cases of pipes (not bagpipes). Lance Morgan of Blairmore won the Pontiac cup in a stiff contest with Harry Boulton's rink.

THIEVES BUSY AGAIN

Coleman Cash Grocery was entered by thieves on Sunday night after 9 p.m., entrance being made by forcing the heavy door of the warehouse. Then removing a panel of the door between the store and warehouse. Various robberies of a similar nature have been perpetrated during the past year, and all point to the work of the same party or parties. In almost every instance of recent occurrence a box car pin has been used to force the door. The pin used to enter the warehouse on Sunday night was taken from a car standing near East Coleman crossing. A quantity of cigarettes and candy were stolen, and a glass jar Mr. Allan was in the store at 9 p.m. when everything was quite in order.

Once upon a time there was a parrot who used to swear terribly. One day he escaped from his cage and wandered onto the golf links and died of shock.

Thrills of the Municipal Elections in Coleman Create Interest Aplenty

Rival Forces Waged Strenuous Contest and Result in Each Elects Three Candidates. Pattinson Won Majority Contest by Six Votes

COUNTING THE VOTES

This is an interesting job. It may be rather tedious, but it tickles the fancy, especially when everyone is so anxious to know the result as quickly as possible. After a day of tense activity, speculating as to who is going to win, there are thrills and disappointments, according to the side you are on, as the vote is being counted by the returning officer, and the scrutineers mark the little strokes against each name in groups of five.

The civic election of Feb. 8th gave the scrutineers almost as much excitement as a horse race, especially when it came to counting the votes for the mayoralty. First would come two or three for Makin, then the same number for Pattinson, then Makin would shoot ahead, then Pattinson, and not all the strokes were counted. It was known who had won—not even then, for Andrew Dow made it a tie of 133, the editor of The Journal made it 132 for Pattinson, and 132 for Makin, while others who had been checking were at variance. When Dow stated it was a tie, Jim Ford, the returning officer, drew a deep breath, looked around the room as if seeking some way out, and after a pause, great was his relief when it was suggested that there he a recount. So Pattinson's votes were counted, then Makin's, and the result was 136 for the first and 130 for the latter. And the returning officer was greatly relieved, for it would be no pleasant job to cast the deciding vote in view of the intense feeling that had marked the election. Such an act would have been regarded as an act of perfidy by one side and of virtue by the other.

The counting of the school trustees' vote was a clean walk-away for Sudworth and Holley from the drop of the hat. With monotonous regularity the counting of the school trustees' vote was a clean walk-away for Sudworth and Holley from the drop of the hat. With monotonous regularity the counting of the school trustees' vote was a clean walk-away for Sudworth and Holley from the drop of the hat. With monotonous regularity the counting of the school trustees' vote was a clean walk-away for Sudworth and Holley from the drop of the hat.

On being asked how he felt by one of the opposition, Andy Dow replied "like a champion." He was a real "Polshavik" victory and it was so far

AND—THE PRINCIPAL DANCED!

The Ladies' Guild of the Anglican church is \$100 richer by an interesting little wager, whereby the school principal was one of the unknown principals. At the delightful social dance given by the Literary society of the high school, one of the lady guests confided to Mr. Hoyle that she would ask her husband to dance. Not having danced for years, Mr. Hoyle told her friend that she would give him a ride to the Guild if she could get him to dance. Well, Mr. Hoyle danced, and the girl pupils were so interested that they wanted to make it a tag dance.

This incident brings to mind a social when another gentleman guest, invited into dancing with a common house broom, and for his graceful steps with such an unresponsive and unemotional partner, was made a life member of the high school literary society.

CROWS NEST PASS DISTRICT SCOUT NEWS NOTES

Executive Commissioner W. S. Bachman of Edmonton will spend two weeks in the Pass, commencing on Monday, Feb. 29. He intends holding a Scoutmaster's Vestibule course of training for leaders, beginning on Tuesday. The course will be held in Blairmore in the evenings, and will be open to scoutmasters, rovermasters, cubmasters, troop leaders, committee members, parents and others interested in the movement. There will be no charge for the course. It is hoped that all who are interested in the promotion of the best citizenship among boys and young men will take advantage of this course, and will do all that is possible to interest others. Mr. Bachman is a good speaker and a very fruitful time is promised.

ST. ALBAN'S CHURCH

Next Sunday is the second in Lent. The services will be 2.30 p.m. Sunday School, and 7.00 p.m. Evening prayer and address. The mid-week service will be held every Thursday as follows: 10 a.m. Holy Communion; 4.15 p.m. Children's service; 7.30 p.m. Evening prayer and address. "Some Phases of Discipleship."

You know, of course, that business comes to the firm that asks for it through effective advertising appeals. Advertisements in the most effective way through The Journal. "It goes into the homes."

Minutes School Board Meeting—Last of Old Board

The regular meeting of the school board was held on Feb. 10, the following being present: Trustees Allan, Antrobus, Barrington and Snowdon. R. F. Barnes tendered a cheque in part payment of arrears collected from Wm. Michalski and his account in connection with professional services, which made up the balance due by Michalski. Moved by Barrington, Snowdon that it be left with the secretary-treasurer to deal with.

Membership subscription for the Canadian Geographical Journal was renewed on motion of Antrobus-Snowdon.

The attendance officer's report for January was passed on motion of Antrobus-Barrington.

Motion by Snowdon-Barrington, that the poll clerk be paid \$7.50 for 13 hours work on election day, Feb. 8. The following accounts were presented and if O.K. ordered paid on motion of Snowdon-Antrobus: Journal \$4.65; J. Emmerson \$75; G. Higginbotham \$2.75; W. Fraser \$5; J. Nash \$5; Coleman Hardware Co. \$35.20; J. Wood \$7.50; trustees convention \$1. F. Barrington \$70.00 (convention expenses); A. M. Morris \$9.80; International Coal Co. \$43; Coleman Light Co. \$46.70; J. Ford refund \$2.85; J. Ford to pay account of R. F. Barnes \$22.30; Canadian Geographical Journal \$315; Pattinson Hardware \$26.80.

Motion by Barrington-Antrobus, that we confirm the action of the committee in granting 5% discount on unpaid taxes to the end of January, and that it be extended to the end of February.

Motion by Barrington-Snowdon, that the report of the dentist be adopted. Trustee Barrington gave a lengthy and interesting report of the proceedings of the trustees convention at Calgary, and it was moved by Antrobus-Snowdon that this meeting tender to Mr. Barrington the thanks of the board for his splendid report.

MUNICIPAL ELECTION RESULTS
For Mayor—G. Pattinson 136; C. Makin 132. Spoiled ballots 1.

For Councillors—L. Jones 113, F. Serak 107, F. Antrobus 104, J. Yates 101, G. Hope 99, H. Claes 94. Spoiled ballots 66.

For School Trustee: R. Sudworth 467, W. Holley 440, F. Antrobus 307, H. Snowdon 228, J. Lonsbury 137. Spoiled ballots 137.

Faithfully Served Community as Mayor, Councillor and School Trustee

Lays Down Gavel With Appreciation of Citizens for Faithful Service.

Tuesday night's meeting of the town council was the last occasion of occupying the mayoral chair by James Moores. For six years he served as councillor, two years as mayor, and two years as a school trustee, making a total of ten years in municipal life.

His administration has been marked by impartial service to the ratepayers, and he has effected some economies. Though requested to again stand for office, he stated he felt he had given his share of time in public activities, and preferred to take a rest.

The citizens generally appreciate his services to the town, and in retiring he hopes they will willingly assist the council at any time.

RED CROSS INFORMATION

The executive of the local Red Cross wish to inform the public that it depends for relief work on local contributions entirely, no aid being received from the National Emergency Relief Fund. The only contributions received so far for the National fund were from Mr. O. E. S. Whiteside for \$25, and Mr. A. L. Watkins for \$50, which were forwarded to Ottawa. Contributions for the National fund may be handed to W. L. Rippon, at the Bank of Commerce, and several have intimated they would donate to this, as well as to local relief.

WELCOME TO "THE ECHO"

The first issue of "The Echo," the bi-monthly newspaper published by the high school students, was read with interest by all who purchased a copy. The editor, W. L. Rippon, managing editor: Wainfred Dunlop, Wilma Halliwell, W. L. Rippon, D. B. Brown, Irene James, whose fashion notes are accompanied by illustrations by Joe Janotsek, cartoonist for the paper, and Gilbert Hoyle who has charge of the jokes column. The cost is 5c a copy, and the bright little paper will create interest among students and parents.

THE BIG CORNER STORE — YOUR STORE — TELEPHONE 232

Ledieu, Kleyko Co.

Many years of consistent service especially to Coleman people, supplying the choicest groceries at the lowest market prices, have helped to make our business grow from small beginnings to very much larger proportions. Our aim has always been to give the best values the markets afford.

Our specials are always eagerly looked for by a large number. These are uniform high quality goods, specially priced for the week ends, and we give you another fine list as follows:

Specials

Fort Garry Loganberry Jam, 4 lb tins, each	.50	Ledieu's Floor Wax, 1 lb tins, each	.40
Pure Honey, 5 lb tins, each	.65	Alberta Flour, 98 lb sack,	\$2.15
B-X Tomatoes, 2 1/2, 2 tins for	.25	Pearl White Soap, 25 cakes for	\$1.00
Canned Corn, 2 1/2, 2 tins for	.25		
Bookeye Salmon, tall size, 2 tins for	.75	Tobacco Special	
Heinz Ketchup, per bottle	.25	Gents—see our corner window, it will be worth your while.	
Sweet Biscuits, 2 lbs for	.45	Extra Special	
Nabob Tea, 2 pounds for	.85		

Meat Specials—Saturday Only

Clareholm and Brookfield Butter, Saturday only, 2 pounds for	.45	Hamburg Steak, per pound	.10
Number One Creamery Butter, quality guaranteed or money refunded, 14 pound boxes, each	\$2.85	Pot Roast Beef or Veal, per pound	.10
(only one box to a customer)		Shoulder Pork, in piece, per pound	.10
		Swift's Premium Bacon, in piece, per pound	.22

"Fresh from the Gardens"

Are We Over-Governed?

Even before existing conditions and present difficulties began to force men in public life, the leaders in finance, industry and business, and over-burdened taxpayers in general, to give heed to the cost of operating our governmental business, national, provincial, municipal and educational, the question: "Are We Over-Governed?" had sporadically arisen. Many people believed we were, and probably the average man if asked the question would unhesitatingly have answered "Yes," adding, "But what can be done about it?"

In answering "yes," Mr. Average Canadian would recognize the fact that in this far-flung and sparsely settled Dominion we have ten Parliaments, ten Governments, ten civil services, to administer the national and provincial affairs of ten million people. That, in addition, we have Commissions, Bureaus, Boards, of all kinds; thousands of municipal units, and tens of thousands of boards of school trustees, with a multiplicity of lower, intermediate and higher courts of law. He would be contemplating the enormous annual output of school boards and municipal by-laws. Provincial and Federal statutes, rules and regulations beyond computation. "Yes, we are over-governed," he would say, and, without actual knowledge of the local government institutions in the Old Country, possibly add: "Look at England, Scotland and Wales with only one Parliament and one Government for forty odd millions of people."

But in asking, in reply, "What can be done about it?" Mr. Average Canadian would have in mind the fact that the Dominion of Canada (B.N.A.), the written constitution of the Provinces with their stated boundaries, the strict division of legislative and administrative authority between the Dominion and the Provinces. He would be giving thought to racial differences, to language difficulties, to differences of creed, to separate systems of schools, and, perhaps above all else, to those many local jealousies, sectional ambitions, business considerations, in a word, all the selfishness of mere humans individually, and in the aggregate, and would be asking himself, "What is the way of co-operation, amalgamation to bring about a reduction in governmental units. So, with a fatalistic shrug of the shoulders, he exclaims: "What's the use, what can be done about it; it's a mess, but there is no way out, so we might just as well grin and pay the piper."

But now the Canadian people have been paying the piper so long, and the cost of the tunes played have become so excessive, that the grin has faded from their faces, and many are beginning to ask themselves a question, namely: "Are we as a people so lacking in initiative and determination, so barren of ideas and ability to solve difficult problems, that we have become apathetic and helpless? Is it not true that we grappled with this thing that is crushing us and cut off some of the tentacles sucking our economic lifeblood away in taxes?"

The outcome of this new orientation in thought about these matters is the suggestion that the unit of representation in various bodies be enlarged, thus reducing the number and size of such bodies. For example, it is suggested that the small rural school districts, and even the small rural municipalities which exist in the Western Provinces, have outlived their usefulness; that the isolated school district be abolished and schools within a municipality be administered by one board; that several adjacent rural municipalities be merged into one.

To illustrate, and taking the Saskatchewan rural municipal system for this purpose. A rural municipality consists, as a rule, of nine townships, that is an area 18 miles square. This system was adopted, and the Province so divided, when there were no good roads as we know them, only trails; when there were no automobiles and people travelled on horseback or by buckboard; when there were no rural telephones. Under these conditions an area 18 miles from east to west and 18 miles from north to south was considered quite large enough for local municipal purposes. But today four such municipalities could be merged, providing a municipal unit 36 miles by 36 miles, with rural telephones, good roads and the automobile could be administered even more easily than the one-quarter of the same area could be twenty-five years ago. Yet the expenses of three municipal councils would be saved, including three municipal offices, three paid secretary-treasurers, three auditors, and many other costs entailed by duplication in over-head administration and management.

This is but a sample of the suggestions being advanced. It is deserving of consideration and discussion at least. The same idea as applied to Provinces will be dealt with in the next article of this series.

Bank Of England Pays

Sends To U.S. Balance Of Credit Advanced Last August

Fulfilling its amendment made on January 25, the Bank of England has repaid the \$150,000,000 balance of the credit advanced to it last August by the New York Federal Reserve Bank in association with other federal reserve banks and the Bank of France.

The bank made the payment without drawing upon its gold reserves. The credit originally granted amounted to \$250,000,000 and was reduced by \$100,000,000 in November, largely by drawing upon gold reserves.

Almost a thousand species of orchids grow in the Philippines.

Another thing that nations owe one another is a living.

...chest COLDS

ACTS TWO WAYS AT ONCE

A "One-Man" Dog

Animal Covers 1,500 Miles In Arctic To Find Master

One of the most unusual dog stories in the north country was revealed at The Pas, Manitoba, on the arrival of George Harrison, widely known trapper. Harrison, who returned from trapping north of Indian Lake, 1,500 miles north of The Pas, Manitoba, told of his former lead dog, whom he left with a friend there about a year ago.

The dog was growing old and he decided to give it a good home with a friend when he came in with his catch of furs last season. He left the dog in November of 1930.

Late in January the dog was missing from his home. Three months later, with bleeding paws and reduced to a skeleton, he was waiting to greet Harrison when he got up one April morning. The dog covered the hazardous trail back to his old home in some of the worst weather in history.

Harrison will keep the dog with him because he does not believe he would survive another such trip.

Tells Dyspeptics What To Eat

Strict Diets Often Unnecessary

It is a well known fact that some people have a strong tendency to produce excessive stomach acidity and consequent indigestion. The remedy, it is said, is to eat a diet of certain tasteless unspiced foods, to omit all fats, and to eat in many instances be slowly overeating. The remedy, it is said, is to eat a diet of certain tasteless unspiced foods, to omit all fats, and to eat in many instances be slowly overeating. The remedy, it is said, is to eat a diet of certain tasteless unspiced foods, to omit all fats, and to eat in many instances be slowly overeating.

A Royal Recipe

Old Fashioned Plum Pudding Of Queen Victoria's Day

Mrs. W. H. Austin, of Toledo, is one woman who can keep a secret. For half a century she has kept secret a royal recipe for old-fashioned plum pudding of Queen Victoria's day. It is to be kept secret and handed down as a legacy to her daughter.

When 17 years old Mrs. Austin was cook's assistant in the Lion Hotel at Nottingham and received the recipe from the former mistress of the kitchen in the castle of the Duke of Rutland on a promise that it never would be given out or sold. In those days the cooks memorized the recipes, which never were written down for fear they would be stolen—Cleveland Plain Dealer.

For Burns and Scalds.—Dr. Thomas' Electric Oil will take the fire out of a burn or scald. It should be at hand in every kitchen so that it may be available at any time. There is no preparation required. Just apply the oil to the burn or scald and the pain will abate and in a short time cease altogether.

Reparations Claim

132 Men Who Were Prisoners Of War In Germany To Benefit

Reparation claims of Canadians who were German prisoners of war, involving \$149,840, have been paid by the Dominion. In amounts varying from \$500 to \$3,000, the money will be distributed among 132 men who suffered disability through brutality. A commission headed by E. M. McDougall, of Montreal, heard applications for reparations from former prisoners of war in all the large centres from Halifax to Vancouver.

Determined By Figures

A mathematical formula to enable scientists to determine just how much vitamin "B" a person needs to improve his system has been reported to the National Academy of Sciences by Prof. George R. Cowgill of Yale University.

An attempt is being made to revive the industry of growing limes in Florida.

Try Lydia E. Pinkham's Vegetable Compound

She's Up in the Air Again Those she loves... are first to suffer when monthly pains shatter her nerve. Lydia E. Pinkham's Vegetable Compound would ease that awful agony.

Payment Of Loan Debts

Suggests That Debts To U.S. Be Paid In Manner In Which They Were Contracted

May I suggest that it would be both fair and in the world's general interest if the debts to the United States were repaid by precisely the same machinery as that by which they were contracted?

It has been said that we borrowed in gold and ought to pay in gold; but this is not quite an accurate statement. To be sure, what we borrowed was valued according to the dollar currency. But gold was not sent across the Atlantic ocean; what was sent was munitions of war. The process, if I remember right, was that the American Government gave to the British Government a credit to be used in purchasing the needed munitions in America, which was done. Now might not the British Government give to the Government of the United States a credit for the amount of debt due under the agreed terms of repayment, the credit to be used in purchasing commodities from Great Britain? The power of repayment would in this way exactly correspond to the method of contracting the debt.

Further, might not a similar machinery be used for all payments of reparations and war debts? Each debtor country might give to its creditor a credit to be used in purchasing within the debtor country whatever commodities the creditor desired to acquire. In this way the disastrous complication of war debts and reparations would be avoided.—Lord Hugh Cecil in the London Times.

Recipes For This Week

(By Betty Barclay)

RICE PUDDING

1/4 cup unpolished rice.
1/2 cup sugar.
1/2 teaspoon salt.
1 1/2 cups coffee.
2 cups milk.
1 teaspoon vanilla extract or rose extract.

Wash the rice and place in a well-oiled pudding dish. Add sugar, salt, extract, coffee and milk, stir thoroughly and set in a slow oven, not more than 300 degrees Fahrenheit. Stir every 20 minutes for three times, then cover and bake gently an hour longer. Serve with sweetened whipped cream, plain cream or caramel sauce.

UPSIDE DOWN CAKE

In a cold frying pan place 3 tablespoons butter and 1 cup light brown sugar. Melt these and add 6 ripe peaches, peeled and sliced. Pour over this a batter made of 1 egg beaten, 1/2 cup light brown sugar, 1/4 teaspoon salt, 1/2 cup hot milk, 1 cup flour and 1 1/2 teaspoons baking powder. Mix egg, sugar and salt. Add milk. Stir in flour to which baking powder is added. Bake 30 or 45 minutes. When baked turn upside down on large platter. Serve hot with whipped cream or sauce.

Looking For Gold Again

Unemployed In Western States Hoping For Lucky Strike

In California and other western states hundreds of unemployed have turned out to seek the gold. Old mines are being reopened and men are following the mountain streams as they did in '49. It is said that those who know how to hunt the yellow specks are making from \$1.50 to \$3 a day.

The pickings are not rich, but there is the adventure, a chance to make a living, the ever-present hope of a lucky strike and the great personal satisfaction of finding useful work.

Sweet and palatable. Mother Graves' Worm Extirminator is acceptable to children, and it does its work surely and promptly.

This Year's Total Eclipse

The belt of totality of the eclipse of the sun on August 31, 1932, roughly 100 miles wide, passes from the Arctic regions via the east coast of James Bay, continuing down through the province of Quebec and crossing the St. Lawrence just east of Montreal; thence it continues southeastward and passes into the ocean by way of Maine.

Oil from the head and jaw of the porpoise and blackfish have been found especially good for lubricating watches and other delicate mechanism.

The young man—"Do you prefer a home wedding?"
The young miss—"Yes, but our house is being sold for taxes."

Needs Constant Attention

But Doctor Has Kept Chicken Heart Alive Twenty Years

The piece of chicken heart which Dr. Carroll has kept alive for twenty years—longer than any chicken lives—is not quite a perpetual-motion machine. Like the lamp of the vestal virgins, it needs constant attention. It must be kept at the proper temperature. It must have the right kind of air. It must be fed with embryonic proteins. It must be washed to remove wastes comparable with the dead leaves that drop from a tree. In a word, it is a tenderly guarded living flame in the Rockefeller temple of science.

Even now that bit of heart is history. In the next century, if infection, starvation, physical injury and poison are warded off, it may become as sacred in a scientific sense as a venerated religious relic. Here is a perpetual reminder of the toughness of the primal cell from which all life evolved and of the price that man must pay for his spinal cord, brain and intelligence. On the one hand, it is a reminder of the power of life, of the growth and immortality; on the other hand, it is a reminder of the beauty of life and love but also death.

That seems to be the great lesson taught by Dr. Carroll's piece of tissue. We may never know much more about life than that. For living matter cannot be analyzed as such without killing it.

Speedy Tramcar Service

Philadelphia Citizens Expect To Travel Hundred Miles An Hour

The citizens of Philadelphia anticipate shortly travelling on an electric tramline at 100 miles an hour. The bullet-like tramcars have been put into regular service on a thirteen miles long suburban line in this American city. These tramcars cost \$40,000 each. They are so like an aeroplane in design that the driver sits in real cockpit, furnished with an upholstered swivel chair. While the cars are being "run in," they travel comparatively slowly—their average speed being only seventy miles an hour. The service will, however, be speeded up.

Douglas' Egyptian Liniment is remarkable in its quick, effective action. Relieves instantly burns, sprains, toothaches, neuralgia. Invaluable for sore throat, croup and quinsy.

One of the most important parts of a new instrument used to measure heart-beats is a gold-plated wire that is so fine as to be invisible to the naked eye.

Anyway, the bachelor who succeeds in telling his married friends how to get through the sea of matrimony is some buoy.

Canadian Writers To The Fore

New Step In Direction Of Canadian Literary Independence

Canada is attaining literary independence, Donald G. French, president of the Canadian Authors' Association, told the Canadian Literature Guild at Toronto.

Mr. French referred to "Plin's Fortune," by Mazo de la Roche, as the "most distinctive piece of craftsmanship of the year" and to the vivid presentation of Canadian life by Dyke Acland in "Sun-down." These demonstrated new self-reliance and confidence in Canada's ability to settle her own problems.

A vast new step in the direction of Canadian literary independence, Mr. French emphasized, was in the realm of history. Hitherto Canada had been dependent on foreign writers for studies of medieval and modern history, but the publication of "Modern Europe and the World," by Professor F. Slemley, of the University of Toronto, marked an important stride forward.

Mrs. Florence Randal Livesey, poetess and journalist, declared Canada need not become despondent about its art, in reviewing current Canadian poetry. She predicted Wilson MacDonald's "Flag of Beauty" would live as has the poetry of Rudyard Kipling. She spoke of the wealth of good poetry as evidenced in the "Canadian Child's A.B.C." by H. K. Gordon and Thoreau MacDonald; "Died in Nanaimo," by Audrey Alexander Brown, of Vancouver; Rev. Robert Norwood's "Isaiah"; True Davidson's "Music of the Modern Day"; Ethelyn Wetherall's "Lyrics and Sonnets," and the new note sounded by Annie Dalton, of Victoria, in her Arctic poems.

Perfian Balm preserves and enhances women's natural heritage of beauty. For sheer feminine loveliness it is unrivalled. Tones and rejuvenates the skin, and makes it exquisite in texture. Delightful to use. Smooth and velvety. It imparts a youthful charm to every complexion. Indispensable to all dainty women. Especially recommended to make hands soft and white. Delicately fragrant. Preserves and enhances the loveliest complexion.

Canada's Shingle Output Shingles to the value of \$9,423,368 were cut in Canada in 1929, according to official returns issued by the Dominion Bureau of Statistics, working in co-operation with the Forest Service, Department of the Interior. Almost ninety-per cent of these shingles were made of cedar.

After being engaged for 43 years, a Missouri couple have been married. They were both from Missouri.

A 30-foot room, cubical in shape, contains a ton of air.

"I'm going, anyway"

THE modern Miss needs no "time-out" for the time of month.

If you've ever taken Aspirin for a headache, you know how soon the pain subsides. It is just as effective in the relief of those pains peculiar to women!

Don't dedicate certain days of every month to suffering. It's old-fashioned. It's unnecessary. Aspirin will always enable you to carry on in comfort. Take enough to assure your complete comfort. If it is genuine Aspirin it cannot possibly hurt you. Aspirin tablets do not depress the heart. They do not upset the stomach. They do nothing but stop the pain.

Headaches come at inconvenient times. So do colds. But a little Aspirin will always save the day. A throat so sore that you can barely swallow is made comfortable with one good gargle made from these tablets. Neuritis. Neuralgia. Rheumatism. Pains that once kept

people home are forgotten half an hour after taking a few of these remarkable tablets. So are the little nagging aches that bring faint, "nerves" by day, or a sleepless night. Genuine Aspirin tablets cost so very little after all, that it doesn't pay to experiment with imitations!

Made in Canada

Japanese Resume Attack On Monday Against Chinese At Shanghai

Shanghai, China.—Reinforced by a considerable force of fresh troops, the Japanese early Monday resumed the attack upon the Chinese defenders in Woosung and Chapel, after winter had temporarily pulled a merciful curtain of rain, snow and fog over Shanghai's battle line.

Throughout the day Japan's offensive forces before Woosung lay crouched and exposed to the slashing sleet and rain, but with the lifting of the fog and as the elements relaxed, rifle, machine gun and artillery fire broke out with increasing intensity. Shells were rained upon the town's forts, which have been the objective of the Japs for several days. If they succeed, they would establish a base for landing and operations of Japanese infantry forces, expected to pour in from transports now waiting off the Chinese coast.

Although fighting has been renewed ashore, the Japanese naval command said other branches of attack had not yet been launched because of fog. The weather was said to be favorable at present to the Chinese, who are virtually buried in trenches and behind barricades, rendering difficult their visibility to the offensive force.

Coinciding with the latest Japanese drive, it was reported that Vice Admiral Sir W. H. Kelly, commander of the British naval forces in the far east and the British Consul-General J. F. Brennan, had approached the Chinese authorities with renewed suggestions for a truce, Japanese officials,

it was said, would be approached later.

Along the more far-flung scenes of operations, namely further up the Yangtze, everything was quiet awaiting better weather.

The Chinese were making feverish preparations to meet the encroaching tactics of the enemy both at Lihoo and in the Woosung area. Lihoo, some 15 miles up the Yangtze from Woosung was a veritable confusion of trenches and barricades and sand bag walls.

Chinese reports said the Japanese had landed troops at Lihoo resulting in an outbreak of hostilities in that vicinity.

Major activities on Sunday, however, centered in a terrific struggle for the mastery of Woosung, where their most intense fire against the creek positions of the Japanese.

Although it was not clear just where the battle stood when snow and darkness called a halt, the Japanese said they had not crossed the creek and taken the ramshackle town in front of the forts.

All Chinese civilian life was blasted out of Woosung by the Japanese warships Saturday, February 6. The entire district was pockmarked with shell fire and bombs from four seaplanes and 12 land planes as well.

Santiago Earthquake

Eight Are Killed and 200 Wounded In Disaster
Santiago, Cuba.—A series of earthquakes dealt swift damage in Santiago, leaving a known death toll of eight and a casualty list of 200 wounded.

The agonizing series of tremors left hardly a building in the city untouched, and a few were destroyed.

Governor Jose Barcelo of Oriente Province estimated that the earthquake damage to the city of Santiago would exceed \$100,000,000.

In the first confusion, as all the 130,000 residents fled to open spaces, newspapermen and other eye witnesses estimated the death toll at from 500 to 1,500. All these figures were found to be an exaggeration, however, as dawn and a measure of calm came to the city.

Opening New Northern Road

Will Connect Hudson Bay Junction, Saskatchewan, With The Pas, Manitoba

The Pas, Man.—Citizens of this Northern Manitoba town are looking forward to their first highway connection with the outside world next summer. Word received that the right-of-way for a road from here to Hudson Bay Junction, Sask., will be cleared by spring and ready for grading. A stretch of 18 miles through muskeg remains to be cleared in the Saskatchewan section.

With a new road being opened from Hudson Bay Junction to Prince Albert and Saskatoon it is expected motorists from the south will be able to drive here before the end of this year's tourist season.

Sir John Martin-Harvey

Noted Actor Now On Seventh Tour Of Canada With New Play

Sir John Martin-Harvey and his London company will be seen at the leading theatres throughout Canada in "The King's Messenger" his new play. This is Sir John's seventh tour in Canada and he likes Canadian audiences. He finds them very appreciative of substantial fare. They do not like "little plays," as he expresses modern comedy. He brought to the Dominion the largest repertoire of plays ever toured, having eight productions, including "Hamlet," "Taming of the Shrew," "Oedipus," "Burgomaster of Sittenmeide," "Via Crucis," "David Garrick" and "Cigarette Maker's Romance."

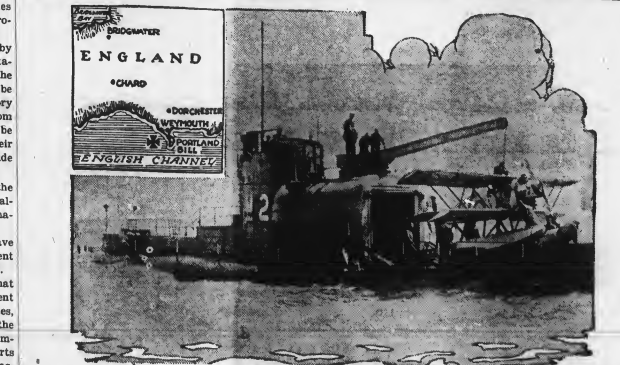

Sir John has played mostly what are termed costume plays, and that he explained, because he was brought up in the tradition. He fell into the path naturally "after being weaned on costume productions." He carried on two of the parts created by Irving, the leads in "The Lion's Mail" and in a version of Scott's "The Bride of Lammermoor" under the title of "The Last Heir."

For three days, commencing Monday, Feb. 15, Sir John Martin-Harvey and his company will be seen at the Darke Music Hall in Regina, in "The King's Messenger."

Expect Report Soon

Ottawa, Ont.—The report on Canada's five biggest port developments, Halifax, Saint John, Quebec, Montreal and Vancouver, being prepared by Sir Alexander Gibb, British expert, who made an investigation last year at the request of the Dominion Government, is expected to be placed in the hands of the Prime Minister before February 15.

MISSING SUBMARINE M-2 HAS BEEN LOCATED OFF PORTLAND BILL

The admiralty has announced that the submarine M-2, missing since it dived January 26, with 61 men aboard, had been located at the bottom of the English Channel, nearly six miles off Portland Bill. The vessel, virtually given up as lost after a desperate search for days, was located by the destroyer "Torrid," with powerful apparatus which detected tell-tale sounds. Above is a photograph of the M-2, the first submarine to carry aircraft, and considered one of the finest diving vessels in the British fleet. The map shows the area where the search has been carried out since the accident.

CANADIAN IS MONORED

Prof. C. T. Curry, Director of the Royal Ontario Museum of Archaeology, who has been elected a Fellow of the Society of Antiquaries of Great Britain. This society was founded by King Charles II, at the same time as the founding of the Royal Society. Professor Curry, it is understood, is the first Canadian to be honored with the initials F.S.A.

Alberta Income Tax

Government Expects To Raise Revenue Of \$1,500,000 From This Source
Edmonton, Alberta.—A revenue of \$1,500,000 is expected to be garnered by the proposed provincial income tax.

Government circles indicated the proposal would be introduced early in the session and that it would in no way interfere with the service tax—a form of income tax—at present in effect in Edmonton and Calgary.

Premier J. E. Brownlee and his financial advisers, it was intimated, were considering making the minimum income for taxation \$750 yearly for single persons and \$1,500 for married persons, with an exemption of \$300 for each dependent in the latter case. Rate of taxation is expected to be from two per cent. upward.

Radio League Asks For Federal Policy

Delegation Told Government Can Do Nothing At Present

Ottawa, Ont.—A delegation from the Canadian Radio League, headed by Graham Spry, chairman, urged a national policy for radio programming, a definite government policy toward the industry, fewer and more highly powered stations, protection for existing radio chain systems and an increased license fee from \$1 to \$3.

Hon. Mr. Durnan, Minister of Marine, replied the government could do nothing until the judicial committee of the Privy Council renders its decision on the control of radio in the Dominion.

Insurance Rate Increased

On Freight Shipped From U.S. Through Chinese Port

San Francisco, Cal.—Since the start of hostilities, between Japan and China in the vicinity of Shanghai, insurance rates on freight shipped from the United States through the Chinese port have increased 1,500 per cent, it is revealed by insurance brokers here.

Prior to the outbreak of hostilities, the rate was ten cents per \$100 valuation. Today it costs \$1.50 to insure \$100 worth of freight.

Sweeping Proposals Made By France Before Disarmament Conference

Geneva, Switzerland.—France laid new and sweeping proposals before the world disarmament conference of the League of Nations, seeking to apply in a concrete scheme her thesis of organized peace as it has never been applied before.

Under aegis of the league she would internationalize bombing aeroplanes, long-range artillery, capital ships and submarines of modern specified tonnage. She would create both an international police force to prevent war and an international punitive force to repress it. She would prohibit the use of incendiary and poisonous air bombs.

"The present conference," a note delivered by the French delegation pointedly adds, "offers the greatest opportunity which has ever occurred for a definite choice between a League of Nations composed of an executive authority and a League of Nations paralyzed by the intransigence of national sovereignty. France has made her decision. She asks the other nations to make theirs."

France submitted her proposals so quietly they were scarcely noticed at the moment. Just before the conference was about to adjourn, Andre Tardieu, head of the French delegation, mounted the platform, and in a few words intimated France had proposals to lay before the delegates which would be distributed later. He said a paper on the table and left the platform—and the conference adjourned.

Summarized, the French proposals provide:

1. Signatory states would be allowed only to construct and use civil aircraft of tonnage below a figure set by convention. The construction and use of machines whose tonnage was greater than this figure would be confined to confessional, inter-confessional and inter-colonial organizations placed under the auspices of the League of Nations which would have a permanent requisition over them.

2. The league alone would have the right to dispose of heavy bombing planes of wide action radius and of more than a specified tonnage. Existing military and aviation authorities would retain freedom to use light aircraft. A state which was the victim of aerial bombardment would be entitled immediately, and on the sole condition that the league be notified, to make use of all its air forces.

3. Heavy long-range artillery, warships of more than 10,000 tons and submarines over a specified tonnage would be placed under control of the league.

Each signatory state would contribute both to the international police force to prevent war and to the first contingent of the punitive troops to repress it. This force would be at the disposal of the league which would organize its command. France would be prepared to contribute to the international police force one mixed brigade, one light naval division and one mixed group of reconnaissance and fighting aircraft.

To the punitive force she would contribute (a) in case of war outside Europe: One mixed brigade, one light naval division, a mixed group of aircraft and material for land warfare without personnel or munitions. (b) For conflict in Europe in which the aggressor had a common frontier with France, beyond the contingent provided above—she would contribute forces whose strength would be determined in each case in agreement with the league.

The French scheme also lays down new rules for the conduct of warfare. Bombardment either from the air or by artillery would be forbidden at more than a specified number of kilometers from the front lines. The only exceptions would apply to bombardment of air bases and emplacement of long range artillery. The use of aeroplanes of incendiary or poisonous bombs would be forbidden no matter what the objective. Coastal bombardment from the front lines. The only exceptions would apply to bombardment of air bases and emplacement of long range artillery. The use of naval artillery would continue to be governed by The Hague Convention.

"Any flagrant violation of these rules," the note adds, "would be regarded as prima facie evidence that the state guilty thereof has resorted to war within the meaning of article XVI of the League Covenant."

U.S. Ambassador To Britain
Washington.—Secretary Andrew Mellon of the United States Treasury accepted the ambassadorship to Great Britain.

Ottawa Parliament Is Opened With Brilliant Setting

Ottawa, Ont.—The opening of Parliament lacked nothing in color and brilliance. From the purely picturesque point of view it was exceedingly colorful. A large attendance of ladies, some of whom waited for several hours to gain admittance to the senate and galleries, clad in evening gowns of variegated hues, were there. Military and naval officers, members of the supreme court, in scarlet and ermine, representatives of the church and of the diplomatic corps, contributed to the picture.

The opening presented some new and interesting angles. At the left of the throne, upon which his excellency sat to read the speech, Lady Beesborough, a graceful figure, occupied the chair once owned by the Princess Louise. Behind her, in all the glory of a gold-laced uniform, Rt. Hon. Arthur Meighen, chosen Thursday morning, Feb. 4, government leader in the senate, stood. Mr. Meighen has participated in the opening ceremony before this, but then he stood at the right of the throne, where Premier R. B. Bennett was stationed Thursday.

The speech from the throne, read in French and English by his excellency, sounded a note of optimism. While making reference to the general depression, it declared Canada's position to be "fundamentally sound." It confirmed the date of the economic conference as July 18. It announced that negotiations are under way with the United States for construction of the St. Lawrence waterways, and it forecast the presentation of a report at this session by the commission on transportation.

From the glitter and gold of the senate, the members of the House of Commons returned to their own chamber. Here another unique event occurred. A Labor member, sponsored by two other members of the same group, was presented to Mr. Speaker, Humphreys-Wilfong, who won the by-election in East Hamilton, was escorted to Mr. Speaker Black by J. S. Woodsworth, of North Centre, Winnipeg, and A. A. Heaps, of North Winnipeg. The Labor membership in the Commons now numbers four.

The other new member to be presented, Charles Bourque, Conservative, of Three Rivers, was accompanied by Premier R. B. Bennett and Hon. Alfred Durnan, Minister of Marine and Fisheries.

Saskatchewan Parliament

Usual Ceremonies Mark Opening Of Legislative Assembly

Regina, Sask.—With the usual pomp and circumstance, the fourth session of the seventh legislative assembly of Saskatchewan was opened February 4, at the legislative buildings by His Honor Lieutenant-Governor H. E. Munroe.

Public and speaker's galleries were crowded, several hundred invited guests were present on the floor of the assembly chambers and outside the "bars" of the House, while every member except one was in his seat.

The booming of a 21-gun salute was the first indication that inside the chamber had that the Lieutenant-Governor and his escort had reached the buildings.

Almost on the stroke of the hour, the Lieutenant-Governor and an escort of military and navy officers entered the chamber and 20 minutes later left having given reasons for summoning the members to an assembly and outlining in detail some of the matters to which their attention will be directed during their stay.

The Spanish Government will increase merchandise freight rates.

Chinese Making Gas Masks

Laundrymen At Pawtucket Have Manufactured Twenty Thousand

Pawtucket, R.I.—An organizer for the Chinese National Party said that during the past few months 20,000 gas masks had been manufactured in a Pawtucket laundry and shipped to the fighting forces of China.

Han Loon of Boston, an organizer of the Que Min Tang, said the work had gone on quietly in the laundry of Sam Kee. The masks were of the veiling respirator type and had been made under his supervision by Chinese, who flocked to the little Kee laundry during their off hours.

Confiscate Result Property

Madrid.—Authorities throughout Spain began confiscating Jesuit schools, colleges and residences while 3,500 foreign inmates peacefully disappeared into towns and cities as private residents or embarked for other countries.

Delegate Has Measles

Paris, France.—Joseph Paul Boncour, head of the French disarmament delegation now in Geneva, was reported ill in his Paris home. His ailment was measles.

Britain's Century Old Free Trade Policy Comes To An End

London, England.—The National Government presented its "trade bill" before the House of Commons, taking the first step in its plan to end Great Britain's century-old policy of free trade, and establish in its place a general ad valorem duty of 10 per cent. on all imports to the United Kingdom, with certain exceptions.

Rt. Hon. Neville Chamberlain, Chancellor of the Exchequer, made it clear that measures contained in the bill which the government hopes to put through all stages of parliamentary procedure by Easter, and into operation by March 1, would not apply to Canada or to any other of the Dominions, at least until after the Ottawa Imperial Economic Conference, which will be held starting July 18, next.

The enactment of the government's tariff policy by Mr. Chamberlain contained six main points. They were:

1. A general ad valorem duty of 10 per cent. should be levied on all imports to Great Britain, except on such articles as are subject to duty already.

2. A free list should be established which would include wheat in grain, meat, including bacon and fish which may be caught in British waters; raw cotton and wool, tea and coffee.

3. A superstructure of additional duties, above the general tariff should be levied on non-essential articles which might be classed as luxuries and on such articles as can be produced in Great Britain.

4. Duties would be imposed by order of the treasury after consultation with the Board of Trade, but the selection of dutiable articles would be made by an independent advisory committee of a chairman and from two to five members, who would be paid salaries proportionate to their standing and to the judicial attitude which would be expected of them.

5. The duties recommended by the advisory committee would be ad valorem or specific, seasonal or permanent.

6. The committee would also have the power of advising establishment of new duties to the tariff schedule. Mr. Chamberlain made it clear that existing duties such as the present levy of 33 1/3 per cent. on automobiles, known as the McKenna duties, the safeguarding duties and duties imposed under the Abnormal Imports Act would remain unchanged by passage of the bill and that no additional duties would be levied against goods listed under the provisions of those measures.

THURSDAY, FEB. 19, 1932**NOTES AND COMMENTS**

People express disappointment on weeks when The Journal is not published. The publisher regrets that necessity compels dropping an issue. Like railway and steamship companies, whom the depression has hit, newspapers have also received a bump. One daily in Vancouver, the Star, ceased publication last week. Others have been cut down in size. Last year The Journal was published at a loss, eating up the small surplus of the previous three years. Since 1928 there has been a steady drop in newspaper revenue because of curtailment of advertising by national and local advertisers. There is only one alternative, and that is—reduce expenses. Issues which have been missed will be made up on subscriptions paid in advance, so that the subscribers will not be out of pocket. It is the aim of The Journal to give as good service as the revenue will permit.

J. S. Woodsworth, M. P., in 1919 was a stormy petrel in Labor circles, especially in One Big Union activities. He was even "favored" with mounted police escorts to watch his movements. But after entering Parliament, he toned down and found that government of the people can only be carried on by compromise—that one section of the community or nation cannot impose its will on the other except by constitutional methods.

He recently visited Russia, and from his short visit observed that he did not consider the people of Canada would submit to the same standardized method as the people of Russia. The standard of living is much lower, and under State dictatorship the people must work for the success of the five year-plan, submitting to what would be considered hardship in Canada. But there were also benefits. The chief of these is that Russia is working on a definite economic plan, whilst other countries are muddling along.

A professor of Yale university, speaking over the radio in a series of educational lectures, stated that an international economic plan will have to be co-ordinated before the world can be restored to prosperity and happiness. The system of the past century has no doubt developed efficiency in manufacture, but not in distribution. It is in research to discover a plan whereby the profits of labor may be more evenly divided, that a way out of our present distress may be found. Not one group of industries, nor one nation, can accomplish the reform which must come—it must be international in scope, and public opinion will necessarily compel governments to give this their most serious attention.

Robert Gardiner, M. P., president of the U.F.A., gave a very enlightening address along these lines at the recent convention. The farmer has suffered heavily, not even receiving the cost of his operations during the past two years. People in other lines of industry think they have been hard hit. Think of the farmer who has seen the value of his products and his live stock drop to about a quarter of their normal value, whilst the articles he has to buy have not decreased in price to anything approaching that.

The result of the recent municipal elections demonstrated the unity of the mine workers. The population is made up of at least 75 per cent. of mine workers and their families, consequently it is to be expected that they can elect their candidates at will. The weakness of the Schools Act is that the majority of the voters can outweigh those who pay the most taxes, which is unsound. The vote on the mayoralty and council was surprisingly small, partly accounted for by the fact that women did not vote through not being registered.

As long as policies on local municipal matters are formulated by the local union leaders, there cannot be any complaint. It is when Communist emissaries try and gain control, through the unions, that stout opposition will be made, for they use unconstitutional methods and do not stick to the truth. There are men with sufficient common-sense in the local unions to advocate the interests of the workers without the domination of those whose policy always has been to bore from within and wreck established institutions. They make others the instruments of their machinations, and very quickly sweep aside those who have opinions of their own. Such is the dictatorship of the proletariat. There is no compromise.

The short, sharp election campaign proved that the platform of the union candidates, though extremely radical and in most of its planks impossible of achievement, carried some influence. The citizens' candidates proclaimed no platform to offset those wild promises. It proved again that elections cannot be won by prayers and good wishes. The miners took the offensive, and darned near carried the citadel. There is nothing like a sharp conflict of opinions to awaken interest in municipal affairs, but if you want to

win elections, you must fight from start to finish. You cannot sit at home whilst the battle rages.

The elected candidates have a year before them to prove their value as representatives of the ratepayers. It is hoped they will show a useful record of service when the year closes, and will work harmoniously for the welfare of all the people's interests.

Believes Enquiry Could be Made

Since the Alberta Government had taken over the natural resources, there had been a steadfast refusal to grant further leases, and in some cases leases had been cancelled. Premier J. H. Brownlee recently told delegates at the recent annual convention of the Alberta Federation of Labor in Drumheller. Also, a plan had been placed on further examinations and miners' certificates.

Looking at the coal problem in the most optimistic light, he failed to see where increased business could result for sometime due to the decreased purchasing power in the prairie provinces. "I think the time has come when the study of the mining problem can be effected, however," he remarked.—Western Canada Coal Review.

Mrs. Isabella Campbell Gray, mother of Robert Gray, of Blairmore, died last week at the age of 73 years, and was buried in Blairmore cemetery on Wednesday.

Counter Check Books may now be obtained through The Journal office, quality books at lowest current prices sold. Keep this in mind when you are asked for orders by out-of-town salesmen, and place your order locally.

Mrs. C. B. Wilcox left yesterday for a visit with friends at Fernie.

Adjourned meeting of Coleman Radio Club in Council chamber on Sunday, February 21, at 2:30 p. m.

Miss Evelyn Ford, Mrs. Shields and Mrs. Scott Campbell were delegates from Coleman to the Rabekah assembly held in Calgary this week.

Mrs. M. E. McDonald of Lethbridge is visiting at Mr. and Mrs. C. B. Devine. Mrs. C. B. Devine returned this week from Calgary after two weeks' visit with friends.

COLEMAN TUXIS VS. MICHEL JUNIORS

The Coleman Tuxis journeyed to Michel on Friday night, Feb. 18, to play the game of the season with Michel Juniors. The game started at 7:30 p. m. and from the first bell was a full 60 minutes of thrills. Both teams fought hard to put the rubber in net, but the time bell for the first period changed with no score. The second period opened fast, and after three minutes of play Clarke found the net for the Tuxis. Michel tried hard to even the score, but after 7 minutes more play Clarke made an individual rush for another goal. Michel players were all rooting for Coleman Tuxis goalie, A. McKay, who was kept busy holding the rubber outside the net and was playing a stellar game.

The third period was wild and furious. Michel determined to score but were being checked at every move by Jenkins and Fleming, and it was not before 14 minutes of play in this period that they finally scored from a rebound, also giving the goalie, A. McKay, the k.o. with a skate over the eye. Play was stopped until the Tuxis made arrangements for a goal sub and Salvador being elected took the pads. Play being resumed Michel, more determined than ever, put two counters through Salvador bringing a thrilling game to a close with a final score of Michel 3, Coleman 2.

Line-up of Coleman Tuxis: A. McKay; C. Clarke, E. Salvador; A. Hayson, Bruno Gentile, M. Farrell, Subs: J. Jenkins, M. Fleming, T. Brennan. Referee, Mr. McInnis, Michel. Penalties: 1st period, Salvador, Litter, T. Taylor, 2nd period, Salvador, B. Taylor, 3rd period, T. Taylor, B. Gentile.

DIAMOND WEDDING AT PUMPHREYSTON

The Middleton Advertiser of Jan. 8 contains the following interesting report of the diamond wedding of the parents of Mrs. Chapman, of West Coleman:

Mr. and Mrs. George Simpson celebrated their diamond wedding at their home in the North Village of Pumphrey, last Thursday evening, when they were entertained by members of the family. They were married at Dykehead on Friday, 30th December, 1871, by the Rev. Robert Gilchrist of Calderhead Church. Mrs. Simpson, 79 years of age and was born in Dykehead. Mr. Simpson is 80 years of age and was born in Boness. They have resided in Pumphrey for many years and have seen many changes take place in the village. Mr. Simpson was one of the early pioneers of the Pumphrey Oil Company and he carried on as contractor in the shale mines for many years. They were five daughters from the marriage, three of whom are still living. There are also seven grandchildren and one great-grandchild.

The aged couple are still in good health, although for some time back Mrs. Simpson's eyesight has been affected. The congratulations of the entire village go to them at this time in their long partnership, with the hope that they may be long spared and have every happiness.

SERVICE IN TIMES OF STRESS BY SUN LIFE

President T. B. Macaulay at the annual meeting of the Sun Life Assurance Company of Canada held recently, pointed out that the Sun Life Company last year paid out \$93,000,000 to policyholders and beneficiaries, and that since organization it has paid out nearly \$600,000,000.

The stabilizing and constructive factor of the Sun Life and other companies in modern economic life is but lightly appreciated.

The annual report of the Company indicates that its new paid-for assurance last year amounted to \$527,000,000, indicating how generally the public, during a trying period, turned to life insurance as a sure and tested refuge.

With assets of \$624,000,000 and total assurances in force of over \$3,000,000,000 the Sun Life Company continues to set new records in the life insurance field.

CHEAP FARES ON RAILWAYS FOR WEEK-ENDS

Montreal, Feb. 15.—In response to public demand, low week-end round trip fares, which have been offered by Canadian National, Canadian Pacific and other railway lines in the Dominion since last summer, will remain in force after February 29, the date originally set for their discontinuance.

In making this announcement, the Canadian Passenger Association draws attention to the privileges now in force and of which extension is now to be made. Round trip tickets between any Canadian stations for any week-end are offered by the railways at the rate of one and a quarter times the regular single fare. These tickets are good going from Friday noon until Sunday noon and returning until Monday night.

The travelling public will thus be able to continue its week-end journeys which have been so popular during the past year, and it is anticipated that the volume of traffic will be even greater as the spring develops. The popularity of the concession is already assured by the thousands who have availed themselves of it, and its extension will, without doubt, be very welcome.

ANNOUNCEMENTS

Dr. A. E. Shore, of Drs. Gunn, Hackney & Shore, Calgary, will be at the office of Dr. R. F. Stewart, Blairmore, on the afternoon of Wednesday, February 24th.

Anyone wishing to consult him with regard to eye, ear, nose or throat, please make appointment with Dr. Stewart.

THE YEAR'S BUSINESS REVIEWED

"... I think you will agree with me that for a year such as that through which we have just passed the showing is a remarkably fine one."

"New assurances of over \$27,000,000, and a total in force exceeding \$3,000,000,000, are figures to be proud of."

"The distribution of our new business is interesting. Canada contributed \$101,000,000, United States \$291,000,000, Great Britain \$59,000,000, and the rest of the world \$83,000,000."

"Our mortality experience has been even more favorable than that of the last year, the claims being but 54.3 per cent. of the expected, against 57.6 per cent. in 1930."

"Since business was commenced in 1871 we have paid out in benefits \$594,000,000. Last year alone our payments were \$93,000,000, an amount exceeding the total assurances written in 1922. We may well rejoice over the magnitude and importance of the social service which the Company is performing."

"During the past year life assurance has been tested as perhaps never before, and it has withstood the trial triumphantly. So far as I am aware not one life company on the continent has had to close its doors, a wonderful record. In Canada we can claim with pride that even since Confederation not one Dominion licensed company has ever failed."

"It will be noticed that in addition to the surplus of \$16,000,000 over all liabilities and capital stock, we have a contingency reserve of \$4,700,000 to provide for possible shrinkage in mort-

gages and other real estate investments. Our reserves have been calculated on the same strong basis as last year. Although our investments payable in American currency greatly exceed our liabilities in that currency, we have treated both as on a par, taking no credit for the premium on American funds. Our liabilities under contracts in other currencies also are included at a total greater than required at the prevailing rates of exchange."

"Our holdings of stocks have been valued on the basis set down by the Dominion Department of Finance, which is practically the same as that adopted for all companies by the National Convention of Insurance Commissioners of the United States."

"In new investments we have favoured high grade bonds, the yield on which is now very attractive. Our purchases of Canadian Government bonds during the year amounted to \$23,000,000."

"The profits paid or allotted to policyholders amounted to over \$26,000,000, or over 20 per cent. of the total annual premium income."

"In the light of these figures, the report is indeed an excellent one."

"And what of the future? No one believes that the depression will last for ever. It is impossible to say just when the turn will come, but with the vast natural resources of this continent, and the brains, energy, and moral wealth of its people, business recovery is inevitable. When prosperity does return no company will share in its benefits in greater measure than our own."

—From the President's address at the Annual Meeting

Local News

St. Paul's Ladies' Aid gave a tea and apron sale on Saturday in aid of church funds, which was well patronized.

Mrs. F. G. Creegan and little daughter returned last week from a few weeks' visit with a sister and other relatives at Warner.

J. Hopkins, who was badly smashed up in a mine accident, has received a great deal of benefit from chiropractic treatments, and is improving.

The wise man has his doubts, but only the fool is positive.

Friends of Dr. DeLong were sorry to learn of the death of his mother which occurred recently at Ottawa.

Miss Hilda Fairhurst will return shortly to Lethbridge to resume her duties as principal of the school, after spending two months' rest at her home here.

Flowers on the altar of St. Alban's church for the services on Feb. 14th were in loving memory of William White, killed in McGillivray mine explosion in November, 1926.

Many were disappointed at the defeat of H. Snowdon, former trustee, who during several years had given faithful service on the school board and took keen interest in the schools.

The Badminton club dance in the Grand Union last Friday night was thoroughly enjoyed. Mrs. Altermatt's orchestra playing a snappy program of up-to-the-minute dance numbers.

Mrs. Charles Nicholas and Miss Lottie Nicholas returned on Friday last from a month's visit with relatives in St. Paul and Minneapolis. They also visited friends in South Dakota.

Items of local interest, visitors at your home, social events, etc., would be welcomed by The Journal for publication. Address them to The Journal or leave at the office. The telephone number is 209.

The concert which was to have been held at Corbin on Friday last by the Coleman Glee Club was cancelled owing to the impossibility of cars getting through. It will be held on Friday, Feb. 24th.

"Daughter of the Dragon" is the feature picture at the Palace, Coleman, commencing this evening, and showing also on Friday and Saturday. Warner Oland is the leading player. Good comedy also in addition.

Mrs. Montague Wilson of Fort William is spending a few weeks visiting her son, Mr. Sidney White, and Mrs. White, at Blairmore. She intends spending a week or two at Arrow Lakes, B. C., before returning east.

Silent Biddle's address and showing of lantern slides was given to a crowded house at the Palace theatre on Sunday afternoon, dealing partly with his own life in jail and the evils to which young offenders especially are susceptible.

Pete, of the Coleman hotel, whilst driving his car past the rock bluff west, had a blow-out, causing him to swerve into the rock, badly damaging his car. Lou Clary tried to knock down a telephone pole, and the car came off second-best. To add to his troubles, it was a borrowed car.

If you are curious to know who "Eight-end" Eddie Leduc may be, he is that congenial gentleman at the club corner store who earned the title by his prowess at Blairmore bospital, when he made a perfect draw to the button in a 15-end game, with the last rock to win.

Attention is called to the announcement of change of business of Lecky's meat market, which from Feb. 23 will be operated by Henry Zak, of Blairmore. Mr. Lecky's friends regret to see him give up the business as he was well liked. He has not decided on his future plans, so he informed The Journal.

Airplane flights over the Rockies during the winter are now quite commonplace, and several days in the past week planes were observed making trips east and west. Additional landing facilities will make the Crow's Nest Pass the favored route over the mountains from the prairies to the Pacific coast.

Leveling off the Rocky Mountains so that the breezes from the Pacific coast would bring moisture to Saskatchewan's dried-out prairie, and at the same time give employment to men out of work, is the serious proposal of a man writing to a Regina newspaper. He says he's not unbalanced.

Rt. Rev. L. Ralph Sherman, D.D., His Lordship the Bishop of Calgary will hold Confirmation services at St. Alban's, Coleman, and St. Luke's, Blairmore, on Sunday, Feb. 28. He is always a welcome visitor, and all are invited to attend the services. His addresses are always interesting and inspiring.

SILVER WEDDING AT MAYCROFT

On Tuesday evening, Feb. 2nd, the home of Mr. and Mrs. F. Moisset of Maycroft was the scene of much merriment when a large number of friends gathered to celebrate the 25th anniversary of Mr. and Mrs. Moisset's wedding. Seventeen guests sat down to a wonderful repast. The supper was followed by a few words of congratulations to Mr. and Mrs. Moisset by Mr. R. E. Williams and everyone joined him in a wish that they may both live to see the day of their golden wedding.

The room was then cleared and set ready for a dance. The music was supplied by Mr. F. C. Harris, and his ability with his violin was most pleasing to everyone. A lunch was served about midnight and was followed by more dancing, parlor games, recitations, vocal solos and violin solos. The party broke up at 7 a.m. Wednesday morning, when everyone left for their respective homes with the feeling of having had a very enjoyable time. Mr. and Mrs. Moisset were extremely proud of the beautiful presents they received and wish to thank everyone who helped to make the party the success it was.
